

TRAUMA KITS

Trauma kits act as a therapeutic resource for psychologists and social workers to use when speaking to or assisting children experiencing a crisis (physical or sexual abuse, death of a loved one, etc.). Items help soothe a child so they can speak with the adult offering assistance.

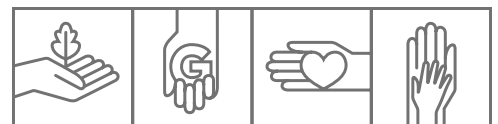

These kits include:

- 8oz. small bottle of water
- Tissues (2 ply, 10 sheets/pouch)
- 3Fl. oz. hand sanitizer
- 2 individually wrapped hard Lifesaver® candies
- Assemble items in a medium sized Ziploc bag

Please deliver completed kits in small/med. size boxes.
