LETTER FROM BOARD CHAIR & CEO

Letter from Board Chair & CEO

2

Dear Friends,

As we continue to strive to meet our mission of reducing barriers and increasing access to opportunities for all of Granite's students and teachers we end another year humbled by the incredible people that make it all happen! Every donor, partner, board member, volunteer and staff member show up in amazing ways to provide for the students and teachers here in Granite. We are so grateful for each of you and the generosity you show in helping us achieve our mission. Thank you so much for all you do!

As we reflect on the past year, one event stands out as a culmination of all the hard work and support that the Foundation is able to do for others. At our new home, Twin Peaks Elementary we named our "Impact Room" after Mr. Scott Whipple the Founder of the Granite Education Foundation. We were able to hold an event and honor him and his legacy that started it all. Scott has lived his life modeling what it looks like to serve others and find ways to help and serve them. It has been an honor for us all to be able to meet and learn from him. Anytime we have had questions as to where to go as a Foundation, we know we should look to our roots that Scott started all those years ago. I the famous words of Rosalia, "It's our roots that really give us our identity"!

We hope you will take some time and look through many of our other highlights from this past year. This report is a good summary, but there is no way to reflect all the good that we see working with all the amazing folks we get to work with! We thank you again for all your support, we truly could not do what we do without you!

IMPACT STORIES

Impact
Stories

6

UTA FARE PAY CARDS:

I had a senior student who was not going to graduate high school because he failed a math class earlier in his school years. He couldn't stay after to work on credit recovery because he took the school bus and had no other ride home. We got him a UTA pass so that he could stay after school, he made up the credit and ended up graduating.

- School Counselor

TEACHER APPRECIATION FAIR:

Students from Bonneville Jr. High created summer activity bags for every kindergartener at Oakwood. These gift bags were thoughtfully assembled using teacher appreciation sweep supplies and community donations.

The impact was heartwarming. Our junior high students not only helped prepare the materials but also delivered the bags in person, spending time with the kindergarteners. The attached images capture the joy and interaction from the event, including a sweet thank-you note from one of the kindergarten students who especially loved their "dino egg" gift. This effort not only supported early learners with meaningful summer activities but also created a powerful cross-age connection that reflects the spirit of family and community engagement in action.

- Anna Kendall, Teacher

TEACHER APPRECIATION FAIR:

The Teacher Appreciation Fair event was a fun change of pace and gave us a chance to connect with each other outside the classroom. It helped build stronger relationships among teachers and brought a positive vibe back into my classroom.

- TAF participant

EMERGENCY FOOD BOXES:

I'm surprised by how much food came in it. It's actually a lot. Thank you again for helping us out!

- GSD Parent

FOOD ASSISTANCE:

Our school wide positive behavior and supports system relies on the snacks provided from GEF. Our students earn stickers and fill up a chart for a reward. The students love when we have snacks and treats on the prize cart. Many of our budgets don't allow for purchasing food items so the donations from GEF provide our students with those rewards they really want. The most popular snack food is takis!

- Social Worker

STUDENT AID:

There is a family who has been through SO much, including homelessness, a death of a parent, food insecurity, and parental substance abuse issues. The 4th grade student I work with has said thank you every single time I bring her clothing, food, shoes, or hygiene supplies. The student I work with is so resilient and the resources at the Granite Education Foundation have strengthened and empowered this family. I honestly do not know what this family would do without the help of the Granite Education Foundation. Thank you SO much for helping this family in need. They have expressed their heartfelt gratitude countless times. Thank you for your donation and making this possible! You are changing lives for the better

- Social Worker

TEACHER APPRECIATION FAIR:

The impact was immense. With our first paychecks not coming in until the middle of September, the store was an immense help with having enough supplies for our students.

- GSD Teacher

IMPACT STORIES

NEW TEACHER STORE:

I needed all of those items! Thank you so very much! It gave me a lift when I needed it. I was wondering how I was going to afford those very things. Tight budget & high bills/debt has made everything a struggle for me. My heart is so full of gratitude. ALL new teachers NEED this at the beginning of the school year. You have alleviated a lot of anxiety for new teachers in one fell swoop! Supplies that I don't have to use my legislative funds for, or money out of my own pocket. Now I can buy extra manipulatives for my classroom. THANK YOU!

- GSD New Teacher

EMERGENCY FOOD BOXES:

There is a family that received an emergency food box. The family consists of a single mom who is trying her best to provide for her five children. This family was recently homeless and the emergency food boxes they received provided so many meals for this family in need. The mom told me to convey her immense gratitude to you all at the Granite Education Foundation. She had tears in her eyes and a smile on her face. What the foundation does truly changes lives!

- Social Worker

SCHOOL SNACK PICKUP:

The snack packs that the Foundation provides have been a big help at our school. Starting last year, they were being used for snack times in lower grade levels and this year have been a big help in the after school homework classes. I think we as adults forget that we snack throughout the day or it is easy for us to do so, but not for active growing kids. They have been a big help in spreading positivity as well.

- Social Worker

STUDENT AID:

A family recently moved to Utah with very few belongings and limited connections in the community. Through the foundation's support, they received clothing and essential household items, which helped establish a trusting relationship. Encouraged by this support, the mother applied for and secured a position at our school. She has since built strong relationships with both parents and teachers. As one of our only Spanish-speaking staff members, she's able to connect with a significant part of our community that we previously struggled to reach. I truly believe the foundations support made this happen

- Social Worker

UTA FARE PAY CARDS:

The biggest impact is getting our students to jobs and employment to help them feel successful as individuals. We have one student who needs to get to work in order to help support his family while his parents are serving time in jail.

- Social Worker

SCHOOL SNACK PICKUP:

I have had COUNTLESS students come to my office for snacks. The snack packs from the Granite Education Foundation help hungry kids be able to focus and learn. Thank you SO much for making a difference in these kids' lives!

- Social Worker

SANTA SACKS:

We have a wonderful family who has secretly been eating Ramen all the time as there is no money left after paying rent. Mom was contacted for a Santa Sack and resources were given. Mom cried as she received help--as she was too scared to ask for help

RUNNERS UP GIFTS

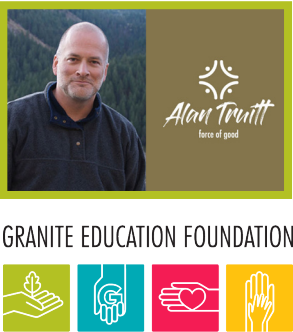

- \$1,000 Scholarship
- \$50 Amazon Gift Cards
- 17 students

"Absolutely Incredible Kid is a heartwarming initiative where Granite School District in partnership with the Granite Education Foundation identifies students at each high school who have overcome significant personal challenges. Each of the students stayed on track to graduate despite the varying challenges that they faced in their personal lives. These challenges have included losing both parents, overcoming significant health issues (physical and/or mental), experiencing homelessness, among many others. Each year 15 to 20 of these students are recognized with \$50 gift cards and the one who is chosen as the Absolutely Incredible Kid of the Year receives a large, personalized gift basket that includes a new computer and scholarship money."

STUDENT AID

"Providing clothing, school supplies, & supportive materials to students"

"I had a student who ordered a coat for himself. When I called him down to the office to pick it up, he had the biggest smile on his face. I handed him the coat and he began to cry as he opened the bag for his coat. He asked if this was for him, and I responded affirmatively. He said that he has not had a new coat in his whole life. He held the coat close to him tightly as he continued to cry. I asked him if he wanted to stay in my office for a little while until he was done crying, he nodded yes. He was so sincere and genuine with his emotions. It was really sweet."
